

Feed-N-Wax - Penetrates and feeds dry wood leaving a superior natural wax finish.

Orange Oil - This was the first orange oil ever made for polishing and sealing wood and it remains by far the best product of its type available.

Restor-A-Finish - Removes heat rings and scratches from furniture finishes instantly and permanently.

Fine Furniture Making
- you can do it - let me show you how

Comprehensive and Detailed 'HOW TO' DVDs filmed whilst making a REAL Piece of Furniture

Independent review by Carol Russell for the Australian Wood Review:

Scott is a passionate and meticulous woodworker. He conveys the importance of preparation and accuracy...He uses mostly hand tools in the DVDs and demonstrates the incredible versatility of a well-tuned hand plane and shooting board...The content of these DVDs is first class, and the restrained approach that Scott takes to his work is pleasurable and engaging. It's a real lesson in excellence but simply explained...I really felt that I learnt something through watching these DVDs and I enjoyed them very much...Scott shows you how to achieve great results using tools and equipment that are accessible to everyone. If you are interested in refining your woodwork there is plenty to be gained here.
